Plus Much Much More On The Day!

Muscle accounts for a massive 45% of your dogs bodyweight and this workshop will teach you how you can postively influence the muscle using professional Canine Massage Techniques to not only help your dog perform better but also to reduce their risk of injury.

This workshop is particularly suitable for agility, obedience, flyball, working trials..infact any sport or training that means your dogs muscular system is under repetitive stress.

You will be working with your own dog all day to learn and apply the secrets that some of the UK's top trainers use to ensure their dogs are truly on top form!
